

# Your Friday Water Report

## This Week's Topic:

### Distribution System

The City has over 100 miles of fresh water distribution piping. Most of those old pipes are at risk for developing leaks. Besides that risk, a number of the lines are "dead ended" which risks service interruption and can result taste and odor issues. Too, several sections of the City have narrow pipelines. In firefighting conditions, the water pressure could drop below fire standards. As a remedy for all of the above, the Preliminary Engineering Report recommended running a large looped pipeline to connect the various dead ends. City Council has authorized the Utility to proceed. Looping and leak projects are in progress. They are big projects and will take substantial time to complete.

## Daily Averages for 06/04- 06/10

**Gallinas River Flow** 5.32 Mgd\*

This week in 2013 was 1.42 Mgd

**Avg. River Diversions** 0.56 Mgd

Yr. to date 281 Mg\*; yr. max 896 Mg

**Draw from Wells** 0.00 Mgd

This week in 2013 was 0.00 Mgd

**Fresh Water Demand** 1.41 Mgd

This week in 2013 was 1.40 Mgd

### As of 06/10/14:

**Bradner Storage** 72.90 Mg

**Peterson Storage** 49.79 Mg

**Storrie Lake Storage** 143.71 Mg

**Reservoir Storage** 79.9%

**Las Vegas Rainfall** 0.09"

**Snowpack Water Equiv.** 0.0 inch

This date in 2013 was 0.0 inch

This date median is 0.0 inch

\*Mgd = Million gal. per day, Mg = million gal

**Did You Know?** The City is again offering treated effluent water that can be used for lawns and plants. Prices are even lower than metered fresh water. Contact Utilities Department for details - 454-3832.
